

Learning REVOLUTION

by **METIRI** Group

Fuel your professional learning with learningrevolution.academy
Recent developments in personalized professional learning research at Metiri Group have resulted in a comprehensive learning platform that models personalized, digital learning for educators.

Personalized Content – Users directly engage with multimodal learning objects and gain more experience with learning content through different types of media.

Classroom Materials – In each course, users get ready access to strategies and other teaching materials they can use in their classroom and with their students immediately.

Social Media – Users have access to libraries of supportive, vetted digital content available on YouTube, Pinterest, GoAnimate, GoodReads, Facebook, LinkedIn, the Metiri Knowledge Base, and more.

Embedded Assessments – Each course has embedded assessments that can help users gauge initial and developing understanding, plus access assessment tools for use with students.

Certificates & Badges – Automated and personalized certificates and badges are available as part of the course completion process for enrolled users.

Wrap Around Services – Wrap around services are available to complement and enhance Metiri Group's courses, including coaching, face-to-face PD, and student measures.

PLC Integration & Virtual Meetups – Each course has a customized PLC integration guide to help integrate professional learning content into local PLCs. To connect with users outside of your local area, Metiri Group also offers monthly virtual meetups to share resources and dialogue about course content and classroom practice.

What is learning revolution?

Learning Revolution by Metiri Group is a professional learning platform that provides a personalized learning environment for online, self-directed learning opportunities for educators and educational stakeholders.

Answering the call.

Learning Revolution is designed based on ongoing dialogue with educators about what kind of professional learning they need and want in today's digital, anytime, anywhere professional ecosystem.

Metiri Group's reputation and capacity.

Learning Revolution courses build upon Metiri Group's reputation and capacity for modeling best practices and understanding what must come next to provide relevant, high quality education for all learners.

Course content.

Available courses focus on key skills of entrepreneurial-readiness, with more on the way. Metiri Group can also develop custom courses and materials with and for partner organizations.

Easily FIND SMARTLY CRAFTED PROFESSIONAL LEARNING WITH TOOLS YOU CAN IMPLEMENT TOMORROW

While many educator professional learning opportunities are available, most use a one-size-fits-all model where all learners receive the same information in the same way over the same time period. Based on the research on how people learn, Learning Revolution provides personalized, self-directed professional learning. By leveraging multimodal, digital materials, Learning Revolution provides any-pace learning tailored to an individual's learning needs. Funded in part by a National Science Foundation Small Business Innovation Research Grant, Learning Revolution fills a gap in the professional learning market by providing educators the opportunity to self-select resources, materials, and presentation formats to suit their own needs.

MULTIMODAL BACKGROUND KNOWLEDGE & CLASSROOM MATERIALS

Users directly engage with multimodal learning and get ready access to strategies and other teaching materials they can use in their classrooms and with their students immediately.

CURRENT COURSE OFFERINGS FOR DEVELOPING ENTREPRENEURIAL –READINESS [\$25 per course or \$ 100 for complete set]

TEACHING CALCULATED RISK-TAKING

TEACHING EVIDENCE-BASED DECISION-MAKING

DEVELOPING SELF-DIRECTION

ENCOURAGING PERSISTENCE

INCREASING TOLERANCE FOR AMBIGUITY

These courses focus on non-cognitive skills that align with research on entrepreneurial readiness. Resulting from a deep investigation into these skills including self-direction, evidence-based decision-making, tolerance for ambiguity, calculated risk-taking, and persistence, these courses connect two literature fields (non-cognitive skills that support academic achievement and non-cognitive skills that support successful entrepreneurship). At the end of each course, users will be able to identify the key research-based underpinnings of each skill, implement classroom-based instructional strategies, and develop student understanding of each non-cognitive skill.

EARN CERTIFICATES OF COMPLETION OR BADGES

Each course has embedded assessments that can help users gauge initial and developing understanding and demonstrate competency through our automated and personalized certificates and badges that are made available as part of the course completion process for enrolled users.

BULK PRICING – WRAP AROUND SERVICES – VIRTUAL MEET-UPS – PLC INTEGRATION GUIDES – ANIMATIONS

Access to individual courses, wrap around services, and support services are available for individual educators. Bulk pricing is available for group, school, district, or state-level purchasing. Contact LearningRevolution@metiri.com for more information.
