

Cyber Eyez

Bring Life Into Focus

TESTIMONIALS

Moments after receiving her Cyber Eyez unit, Kim turned on the magnification, looked across the table and could see the face of her friend that she hadn't seen for over 15 years. Unable to contain her excitement, she threw her hands in the air and exclaimed, "I CAN SEE!"

KIM B

"Cyber Eyez is 1,000 times better than eSight, which is more complicated and you have to have some vision for eSight. With Cyber Eyez you don't need to have vision."

CARMALITA

"This is way better than I actually imagined. Generally, you can get nice stuff for the blind, but on a scale of 1 to 10, it's maybe a 4 or 4 1/2. This is definitely beyond a 10. Truly beyond a 10."

VAUGHN F

AN UNPARALLELED EXPERIENCE

About Us

CyberTimez is an award-winning business focused on making a difference in real people's lives through technology. We are driven by our motto "always in the service of others." Our highly skilled industry experts are constantly working to provide affordable wearable solutions to real-world problems.

Application

Cyber Eyez is an application for smart glasses that enables users with low vision and blindness to be more independent in a sighted world. Users can experience their world and get things done efficiently and independently. By using a high definition camera and an optical character recognition engine, Cyber Eyez provides highly accurate text recognition. Wearers can have any text read to them in real time with no internet connection while still maintaining privacy.

Crystal City, VA 22202

The application is available for the Vuzix M100 and M300 Smart Glasses, which are Android-based wearable computers with a monocular display and onboard processor, recording features and wireless connectivity capabilities. Its pre-installed apps can be used to take pictures, record and play video, track timed events, link to your phone and more. Additional apps can be installed like Netflix and iHeartRadio to stream movies and music directly to the smart glasses.

Bring life into focus with the unparalleled experience that Cyber Eyez offers:

- Real-time Magnification up to 15x
- Read Text (OCR) for over 100 languages with no internet connection
