NAD Treatment Center Endorses the NAD Summit

San Diego— [NAD Treatment Center](#), the premier anti-aging and addiction detoxification clinic in San Diego, California, is co-hosting the [Third Annual NAD Summit](#) January 26-28th, at the Catamaran Resort and Hotel. In collaboration with the [Center for Research on Addiction and Brain Health](#), [Springfield Wellness Center](#), [ChromaDex](#) and [Zymo Research Corporation](#), this event will discuss the latest innovations and discoveries in intravenous Nicotinamide Adenine Dinucleotide (NAD⁺) therapy.

This event has attracted researchers and clinicians from across the globe to [discuss](#) a variety topics, including improving patient care, addiction recovery, the effects of NAD⁺ on the brain and body, advanced technology to combine with NAD⁺, such as light therapy, and yet to be released data from the first ever pharmacokinetic study of intravenous NAD⁺. Furthermore, Zymo Research group will reveal information on their groundbreaking tool that measures age through epigenetics, a first of its kind. Highlighted keynote speakers presenting at the NAD Summit include:

- World renowned brain health expert from Australia, [Dr. Ross Grant](#);
- Scientific advisor from ChromaDex and NAD⁺ metabolism expert, [Charles Brenner, Ph.D.](#);
- A specialist in neuroimmune dysfunction, who is combining NAD⁺ with photoactivated light therapy, [Dr. Mike Payne](#);
- And one of the founding pioneers in intravenous NAD⁺ therapy, [Dr. Richard Mestayer](#).

“In order to truly help the individuals regain their health and/or sobriety,” states Thomas Ingoglia, President of the Center for Research on Addiction and Brain Health, and Business Director of the NAD Treatment Center, “it is imperative that clinicians and researchers work together for the sake progress and innovation. The NAD Summit provides the space to have those types of conversations, and to collaborate within the community to provide better patient care and to improve treatment protocols.”

To register for the NAD Summit, or for more information, visit www.nadsummit2018.com. To inquire about video recordings or press passes, please contact tara@nadtreatmentcenter.com. All proceeds are donated to the Center for Research on Addiction and Brain Health to fund research in exploring the role NAD⁺ plays in cellular regeneration, addiction recovery and other chronic conditions.

NAD TREATMENT CENTER

Innovators in Recovery & Wellness

About NAD⁺ (Nicotinamide Adenine Dinucleotide) is a simple metabolic coenzyme of Niacin, a B Vitamin that is involved in energy production for every mitochondria within our bodies. Research has shown that people afflicted with addiction and age related conditions have an NAD⁺ deficiency. Intravenous treatment replenishes the supply of neurotransmitters and promotes healthy brain and cellular function. It is based completely on nutrients that are found naturally in a healthy body.

About NAD Treatment Center

Located in San Diego, NAD Treatment Center is a clinic that specializes in natural detoxification from chemical dependence through brain restoration therapy using intravenous NAD⁺. We offer the best chance for recovery to those suffering from addiction to opiates, alcohol, amphetamines, and other substances. Using NAD⁺ in combination with the latest technology and alternative therapies, we customize recovery programs for each individual. Our treatment program is unique because we minimize the amount of medication people have to take and restore their brain on a cellular level. For additional information, call (844) 623-7587 or visit us online at NADTreatmentCenter.com.
