

DOCSUMO

Intelligent data capture, workflow automation, and decisioning from unstructured documents.

Beyond data capture, business processes require easy validation and fast decisioning.

Income Statement

	(2020)	(2021)
Net Sales	\$30,000	\$40,000
Cost of sales	\$9,000	\$12,000
Gross Profit	\$21,000	\$28,000
Administrative Expenses	\$5,000	\$4,000
Operating Income	\$16,000	\$24,000
Interest Expense	\$2,000	\$1,000
Loss on equipments	\$500	\$500
Income before income taxes	\$13,500	\$22,500
Income Tax	\$500	\$500
Net Income	\$13,000	\$22,000

Validation

Extracted Gross Profit= \$28,000

Validation Rule:

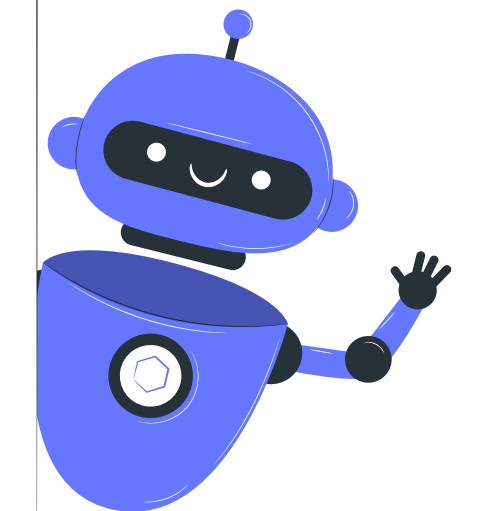

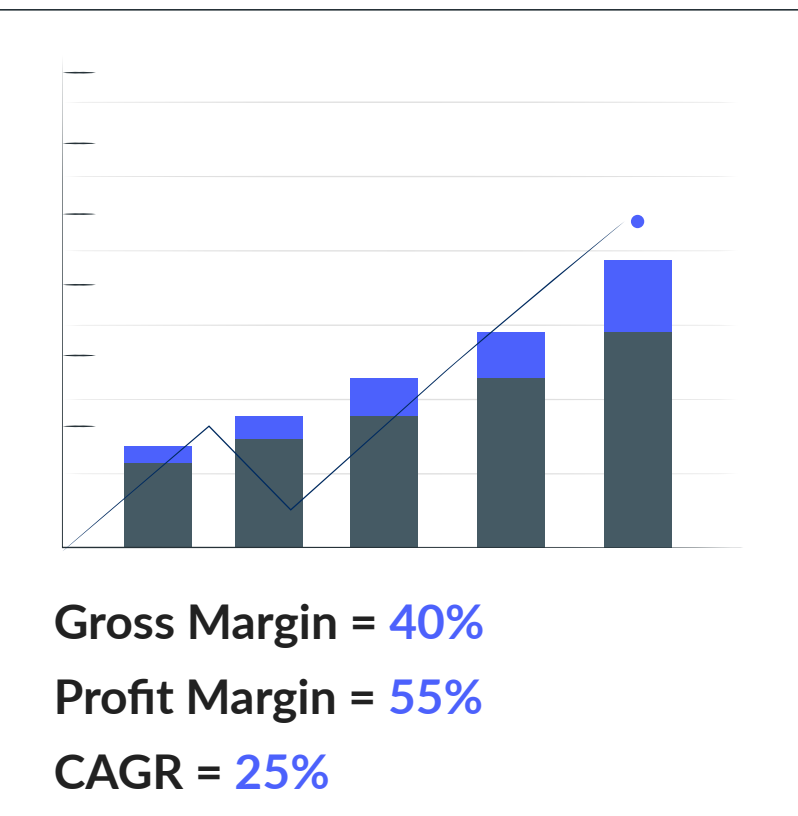

Gross Profit = Revenue - COGS

Gross Profit = 40000 - 12000

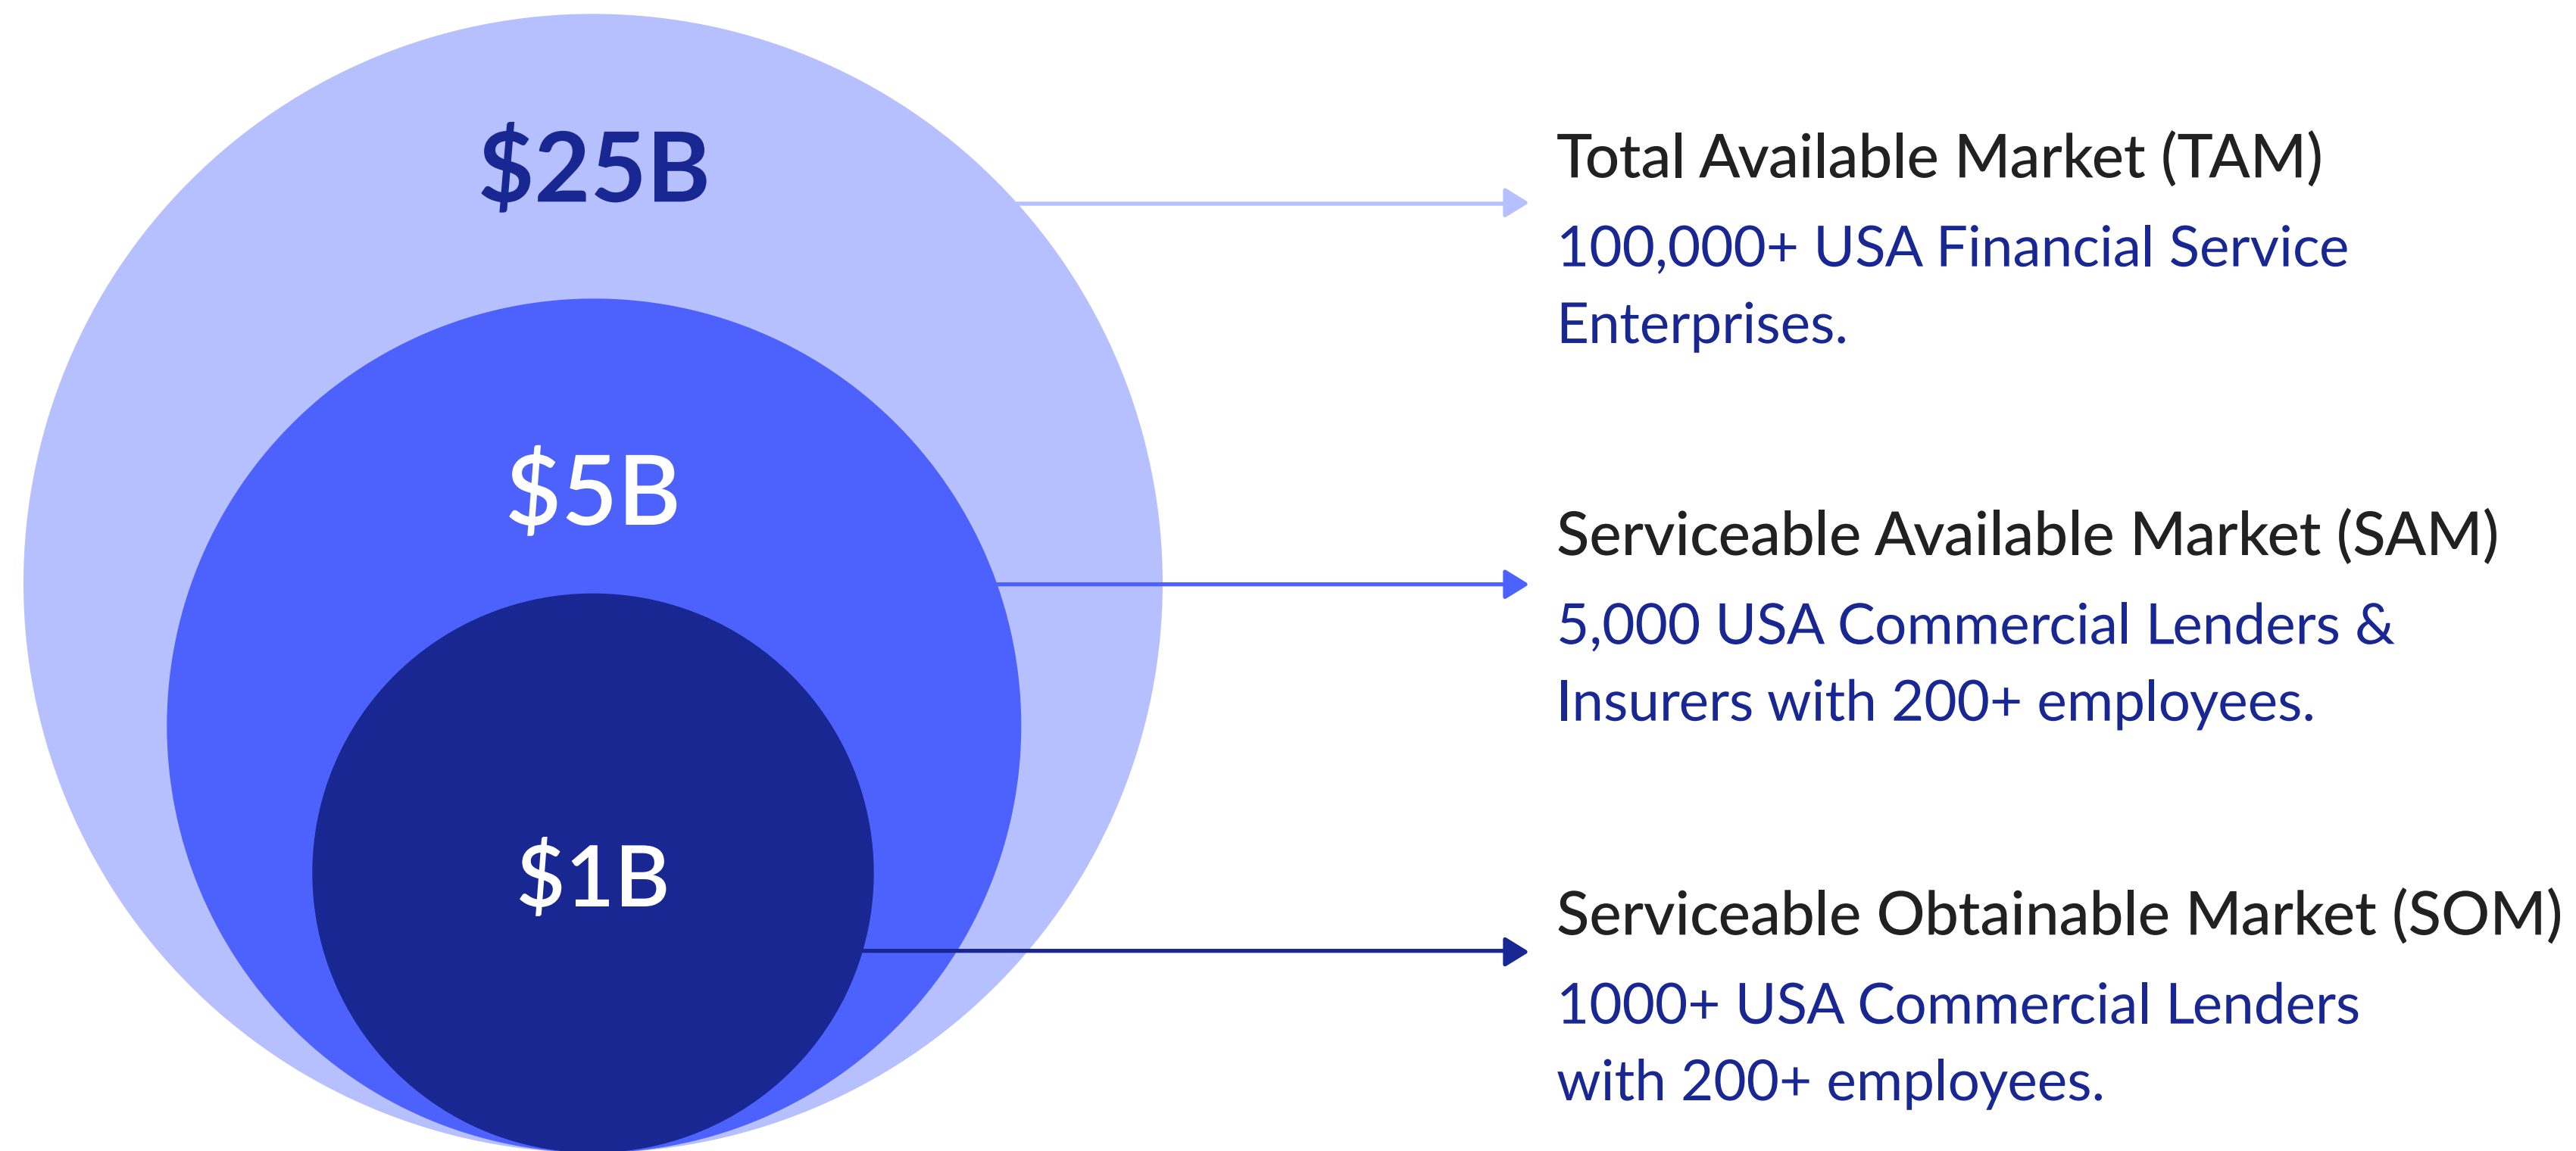

True

Decisioning

Manual document processing is a huge pain for 100,000 US financial services that employees over 150K data keyers today.

Our Mission

Docsumo helps enterprises make fast & accurate decisions from unstructured data.

Our clients achieve 10X operational efficiency by using our self-service, developer-friendly tools to modernize manual, error-prone back-office tasks that depend on documents.

We are building APIs to automate & improve key document workflows that drive financial decisioning.

Our clients trust us to process documents per year.

Customers really love us.

With Docsumo we are now able to process thousands of ACORD Forms in a day.

“We were looking for a tech partner to automate analysis of certificates of insurance for our real estate liability management software. We are really happy with Docsumo’s APIs and their team’s dedication to solving our problem. We are now able to process thousands of ACORD forms a day automatically while being able to get accurate analytics from over 100 data points”

JONES

Docsumo is your go-to solution if you need a flexible solution to capture data from unstructured documents.

“Docsumo does a very good job when it comes to our specific use-case. Debt settlement letters vary a lot from each other, but Docsumo manages to capture data accurately almost every single time at the processing speed which is unprecedented. We’re witnessing the STP rate of over 95% with Docsumo.”

 **NATIONAL**
— DEBT RELIEF —

Best in class for capturing data from financial documents.

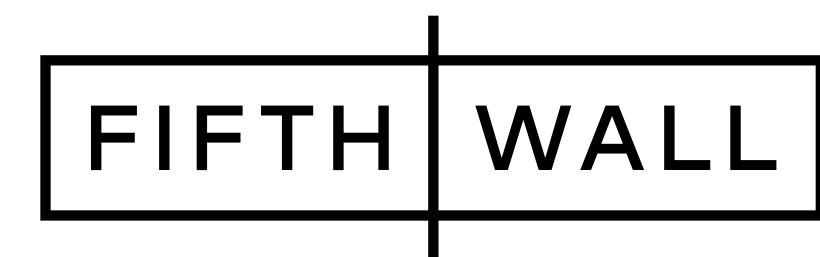

“We are using Docsumo’s APIs for automating data capture from bank statements and identity cards while on-boarding customers. It has reduced the time our operations team spends on data entry by manifolds while providing a much better customer experience.”

PayU

Self-serve, developer-friendly, full end-to-end automation remain our key differentiators.

Proud to be backed by incredible investors.
