SKELETONS

Not everyone goes to Heaven.

Jamesse, the skeleton whispered again and again until it possessed the boy, forced him to steal a mysterious book from Saint Michael's Church and threatened to kill his best friends if they refused to perform a séance that opened a tunnel to Hell a few weeks before Halloween. Welcome to the farm town of Laredo, where a strange creature, seven teenagers and a violent sociopath nicknamed the Bald Man collide at the crossroads of Highways 31 and 61.

SKELETONS tells the heart-wrenching story of innocence lost while introducing a new hell to the horror genre that will leave readers begging to know more about the Carry House, Father O'Maly and the Master.
