VTES™ - On Demand Inspector Training

Velocity Training offers a virtual student campus providing higher-level education and exam preparation to pipeline inspectors and industry professionals world-wide.

We stand by our training and if you do not pass the first time, we provide another course for you absolutely free!*

Our courses are: ✓ Comprehensive

✓ Fully Supported

✓ Interactive & Narrated

Our method of learning is flexible and the navigable style of our courses allow our students to custom select lessons that fit to their specific training requirements or learning needs.
API 1169 Exam Preparation Courses - Worldwide

Course Summary

Our **online training** focuses on better preparing individuals for the API 1169 international certification exam and covers the information outlined with the Body of Knowledge; including codes, standards, best practices, and required areas of inspector proficiency. The course covers the information from the basics to the less understood quality and environmental principles that are heavily tested on during the exam. This course presents 72 lessons throughout 11 interactive modules. Included within the course, there are unlimited practice exams formatted like the API multiple choice exam. The question bank contains over 800 practice questions to test inspectors on code reference and general knowledge categories with INSTANT feedback!
