

Flex-AC Now Available at Home Depot!

We are thrilled to announce our partnership with Home Depot, bringing the Flex-AC EV charger to a wider audience and making it even more accessible to electric vehicle owners seeking a convenient and reliable charging solution.

With the [Flex-AC](#), you now have the freedom to charge your electric vehicle wherever you desire. Simply plug into any standard 120-volt outlet or enjoy the flexibility of up to 40 amp charging with a 240-volt outlet. The Flex-AC charger automatically adjusts to the available voltage and maximizes power delivery, ensuring the fastest charging speed possible. Whether you are charging at home or embarking on new adventures, the [Flex-AC](#) coupled with adaptors, guarantees your electric vehicle remains charged and ready for your next journey. Experience the convenience and adaptability of the [Flex-AC](#) as you effortlessly power your vehicle, both in your home garage and during your travels.

Pion Power is based in Canada. Our vision has always been to provide innovative clean energy products that empower individuals to embrace a sustainable lifestyle. With the availability of the Flex-AC at Home Depot, we have taken another significant step towards achieving our goal of making green living accessible to all. We are dedicated to bringing you the latest advancements in clean energy technology, enabling you to live a sustainable lifestyle without compromising on convenience. We believe in driving towards a greener and brighter tomorrow, not just in Canada but around the world. [Explore Home Depot's online](#) to find Flex-AC and embrace the freedom of electric vehicle charging! Together, let's drive towards a more sustainable and eco-conscious world.
