

Be Better Than Your Competitors With

The #1 all-in-one  
Corporate Wellness  
Platform trusted by  
wellness providers for  
3+ million employees  
worldwide

# Wellness. Go further faster.

CoreHealth helps you innovate faster and accelerate your time to market with a fully integrated corporate wellness platform that supports as many organizations, employees and activities as you need.

## Why Wellness Providers Love CoreHealth

## Organizations work with CoreHealth because

We don't compete with our customers! CoreHealth is a wellness technology provider only.

We are the #1 platform because we're your partner for growth.

The CoreHealth Wellness Network gives customers access to over 140 unique best-in-class wellness innovations, providers and tools through the platform.

# Platform Highlights

- **All-in-One Wellness Solution** - assessments, biometric management, education, coaching, challenges, incentives, surveys, social communication and more. Implement your complete wellness strategy - your way.
- **Easy to use** - users love that it's intuitive and fun!
- **Multi-lingual** - English, French, Spanish, Chinese, Hebrew and beyond.
- **Innovate** - cutting-edge technology helps wellness providers create and deliver unique programs and lead the wellness revolution.
- **Fast Implementation** - simply create and forget the wait.
- **Multi-location** - portals for one or multiple client locations - no limits.
- **Cost Effective** - no expensive infrastructure with affordable and flexible license options.
- **Flexible** - easily configure and personalize programs.
- **Secure and Private** - gain privacy and security practices that satisfy even the toughest standards - around the world.
- **Reputable and Reliable** - trusted by all types of providers who support all business sizes.
- **MyWellApp** - native mobile app, responsive portal designs enable viewing access from any device.
- **Reportable** - all platform data is easily reported/ exported by user, location or company-wide.
- **Integration Experts** - integrate with third-party devices, apps and wellness solutions.
- **Customer Support Ninjas** - supported by a knowledgeable, responsive and fanatically solution-focused team
- **White Labelled** - easily customize to your's and your client's brand.

## Lead Generation

"One key-differentiator we saw in CoreHealth was their commitment to being a technology provider and not a program provider. As a program provider, you don't want to compete with your technology vendor for business. Not only do we not compete directly, but CoreHealth has been an excellent source of lead-generation and a valued partner in promoting our integrated care management solutions."

David Ennor, Program Director  
HMC Healthworks

# CoreHealth Helps You

## GO FAST

CoreHealth is the only integrated solution that supports as many organizations, employees and activities as you need.

We provide the platform and help you get up and running fast, where you can manage it yourself to go as quickly as you want. No limits.

## GO WIDE

CoreHealth's Wellness Network gives you access to over 140 unique, best-in-class wellness innovations.

Mix and match from our library of content and components - or put your ideas in motion with seamless integration to devices, apps and services.

## GO DEEP

We help clients dig deep. Develop new, unique programs and push the barriers of wellness while digging into the data to get results.

We go deep too - to protect the security, privacy and integrity of your information and ideas.

## LEARN MORE ABOUT COMMON RISK FACTORS

The following data has been compiled based on your answers to our health risk survey. This is your source for accurate and relevant health information that has been personalized for your needs. This information will help you understand how everyday health habits and your family history could impact your health in the future.

📉	CHOLESTEROL	+
📉	BLOOD PRESSURE	+
📉	WEIGHT	+
📉	WAIST	-
HIGH RISK		
Your Waist is (Inches): 41		
Your waist circumference is high. A waist size 88 cm (35 inches) or higher for a female or 102 cm (40 inches) or higher for a male carries a higher risk of type 2 diabetes, coronary heart disease and hypertension.		
Tips for Reducing Weight:		
1. Get physically active for at least 30 minutes daily (see the Exercise section for more details)		
2. Eat healthy foods (see the Eating section for more details)		
3. Get support from family and friends		
4. Talk with your health care provider
