

PHONE TOASTER

Meet Phone Toaster

Phone Toaster is a phone sanitizer that comes packed with every helpful feature you need for your phone, in your office or bedroom:

Closed-lid UV phone sanitizer

Analog alarm clock

Wireless fast phone charger

Extra USB charging port

Bluetooth speaker

5 FEATURES, 1 DEVICE

So Long, Germs, Bacteria & COVID-19

We all know our phones are unclean, but few of us actually keep our phones sanitized. For a device that we regularly press up to our cheeks, this should be a priority.

10x

times dirtier than
a typical toilet

>17,000

bacterial gene
copies

Phone Toaster uses strong UV lights to eliminate all germs and bacteria from your phone in just 5 minutes. Studies have proven UV sanitization to be effective against a number of viruses, including the SARS and MERS coronaviruses, and similar results can be expected when treating COVID-19, according to a report from the International Ultraviolet Association.

Keeping our phones clean is such a bother. We knew there had to be an easier way. We created Phone Toaster to help everybody create better hygiene habits without any added stress:

- Most people charge their phones at night
- Now you can sanitize your phone at night too!

Phone Toaster also helps you resist the urge to surf the internet until the wee hours of the morning by 'putting your phone to bed' before your head hits your pillow. Rest easy and wake up to a freshly toasted phone, every night.

Helping You Form Good Habits

Designed for Your Home & Office

While Phone Toaster is primarily intended to be used at night-time during sleep, we've designed it to look great in any room: bedroom, kitchen, living room or office. We added multiple features to help reduce clutter. Now, the only things you need on the table are your Phone Toaster and a lamp.

Brought to You By SK Networks

We are an internal startup team from one of the largest companies in South Korea, SK Networks, in charge of launching new products for their April Stone brand line. Our goal is to build high-tech lifestyle products that solve everyday problems. You can be guaranteed that with a big brand like SK producing Phone Toaster, you will be delivered a quality product that you will absolutely love.

Nobody Does 'Full-Featured' Like We Do

PHONE TOASTER

Combines 5 features in 1 beautifully designed package

5 powerful lab-certified UVC LEDs for maximum coverage

Disinfects 99.9% of the phone's surface — Lab-certified by KCL to eradicate E-coli and Staphylococcus

Prioritizes health and safety with UV light-proof sealed lid design

OTHER PHONE SANITIZERS

No competitor has as many features

Most competitors only offer 1 or 2 LEDs

Can't properly sanitize the entire surface of the phone

Some designed with an open-top, emitting UV light that puts users at a serious health risk

DON'T MISS OUR SUPER EARLY BIRD PRICES!

We're launching Phone Toaster on Kickstarter in mid July. Mailing list subscribers will get the first heads up about launch time ([sign up at our website](#)).
