Join OpenBots for the first ever "Zero Bot Licensing" RPA Conference. The RPA Industry has tripled in the last 4 years and RPA Software License costs have increased the same. OpenBots is a full-featured RPA and Automation Platform that rivals the "Big 3" RPA vendors in quality, performance, and tools, however the licensing cost per bot is \$0. Join us at the conference to discuss scaling, ROI, and cost savings through platform migration on an enterprise scale for automation initiatives.
