

Team Modul Receives Alabama Modular Installer Certification

PRESS RELEASE **UPDATED: JUN 12, 2019**

TUSCALOOSA, Ala., June 12, 2019 (Newsire.com) - Modular building installer, [Team Modul, LLC](#) has received certification as a licensed installer in the state of Alabama. TM obtained the license to meet the requirements in the successful pursuit of multiple commercial modular installation projects in the state.

The Alabama Manufactured Housing Commission (AMHC) states that no off-site manufactured home or off-site manufactured commercial modular building shall be installed within the State of Alabama unless the installation is performed by a certified installer who is certified by the Alabama Manufactured Housing Commission. The licensure required an intensive review of the experience, an evaluation by the AMHC, in-person classroom time, successful passage of testing, and bonding.

Team Modul, LLC is a 100% Woman-Owned Small Business based in Texas that provides installation services solely to modular building dealers and direct manufacturers nationwide. During its beginnings in 2011, TM installed hundreds of commercial modular units, including permanent and temporary educational spaces, health care facilities, government housing and commercial office spaces. Project sizes range from a few thousand dollars to over two million dollars in installation scope alone. TM is an active member of the Modular Building Institute and a licensed industrialized builder in the state of Texas.
