Advanced Prosthetics

The goal of our Advanced Prosthetic program to help our heroes who have been injured in the line of duty. There is a financial burden placed on them when only certain prosthetics are provided by other sources. We want our heroes to get back to living active lifestyles which will help them be healthier in body and mind. Len Anderson (Left) doing what he loves thanks to the support of 4 the Fallen, currently plays for Louisville Slugger Warriors softball team.

Service Dog Program

4 The Fallen is dedicated to providing service trained canines to heroes suffering from Post Traumatic Stress Disorder (PTSD). The goal of the Service Dog Program is to empower heroes to return to an independent and high quality lifestyle.

In partnership with the Patriot Service Dog Foundation, 4 The Fallen assists our heroes with PTSD in receiving trained and certified service dogs. For more information on the Patriot Service Dog Foundation, please go to www.patrioticservicedogfoundation.com.
