

The best of indirect and direct purchasing in **one place**

Conveniently capture all of your spending in Procurify, see it in NetSuite and never be blindsided by an invoice again.

Accessible

Enable your team to capture your spending in Procurify, and maintain certainty in your financial record when you import your data into NetSuite.

Manageable

Create custom approval routing based on dollar thresholds and departments. Create robust controls, or maintain flexibility based on your organizations needs.

Convenient

Take your company's purchasing process out of the office with our mobile app. Request, approve and update spend data on your mobile device.

"It's not just Procurify's ability to free up their time, and create more efficiency, but the improvements in accuracy that it brings to reports is something that our accountants value greatly."

Cevdet Samkoglu,
Chief Financial Officer,
Samumed

Purchasing, Receiving, and Matching with Netsuite Bills

- Centralize purchases into purchase orders with Procurify
- Easy receipting to track quality status, and supporting documents of purchases
- Build your catalog with indirect purchases

Requisitions and Approvals

- Design your own approval structure based on your organization
- Pre-approval workflows to decentralize decision making quickly
- Fast and informed requisitions and access from anywhere on the cloud

Vendor Management

- Two-way vendor sync with Netsuite to keep your vendors up to date
- Set preferred vendors for your requesters
- Report purchases by vendor and identify opportunities to improve spending

Web & Mobile

- Native iOS and Android applications to make or approve requisitions, travel, and expenses
- Simplified expense management with OCR on your receipts
- Receive anywhere with mobile receive

Across the world, hundreds of companies use Procurify to track, control and analyze their spending. Get set up in as little as two weeks and let us help you transform your company's purchasing.
