
Merry Richards Jewelers Celebrates Christopher Designs' Latest Jewelry Collections With Annual Trunk Show Event

On Saturday, May 5, customers will flock to Merry Richards Jewelers to shop the esteemed engineer-turned-jeweler's award-winning diamonds and jewelry pieces.

OAKBROOK TERRACE, Illinois, April 17, 2018

(Newswire.com) - This spring, jewelry shoppers in the greater Chicago area can take advantage of the finest in modern diamond pieces by an award-winning designer. Merry Richards Jewelers will host their annual [Christopher Designs](#) Trunk Show at their Oakbrook Terrace showroom on Saturday, May 5, 2018.

From 11AM-5PM that day, attendees can explore over 500 of the jewelry designer's most popular fashion and bridal jewelry styles, as well as the latest products from the studio's newest collections.

Christopher Slowinski, the founder of the brand, is renowned for his patented Crisscut diamond cutting technique that makes stones brighter, whiter, and more brilliant than an average diamond of the same size. His proprietary process combines the best of engineering principles and jewelry craftsmanship to develop diamonds that appear to be up to 60% larger -- but at a fraction of the weight. This innovative method allows brides and jewelry aficionados to get the most out of their investment in diamond pieces.

Fans of Slowinski's work can also browse through Merry Richards' selection of his latest projects: the Memory Cuff Bracelets and the Color Designs collection.

The Memory Cuff Bracelets feature Christopher Designs' memory spring technology. The mechanics of each piece allows the wearer to effortlessly bend open the bracelet to fit onto their wrist; afterwards, the bangle reverts to its original size and shape without breaking. These cuffs come in a variety of gorgeous designs, and can be found in white gold, yellow gold, rose gold, as well as platinum.

Additionally, items from the Color Designs collection will also be available at the Illinois-based jewelry retailer. Each of these fashionable rings feature colored gemstones of the highest quality. Shoppers can examine rings with dazzling center stones made of green tourmaline, emerald, yellow beryl, sapphire, and even yellow diamond. Each gemstone is surrounded by a halo of Christopher Designs' radiant diamonds, adding even more sparkle to an already sensational piece.

Making an RSVP in advance is recommended, as this event is highly anticipated by much of Merry Richards' distinguished clientele.

To book an appointment, or for more information on the Christopher Designs products Merry Richards Jewelers will have available at their trunk show, please contact their staff using [this contact form](#).
