Your Waitlist Is Pure Gold

Give Waitlist Diners An Experience That Will Keep Them Coming Back

Want To Learn More About ResEasy's Waitlist?

Studies show that capturing guest data for walk-ins can contribute up to 20% more return visits.

The ResEasy system is designed to help reach this goal by automating manual processes and using text messaging as it's primary communications with waitlist guests.

The benefits are:

1. Faster connections with your guests
2. Easy and accurate text responses from your guests.
3. Hosts can maintain communications with guests as long as needed.
4. Best of all, we don't charge texting fees to the restaurant.

Because our system operates past midnight, entertainment venues, lounges, clubs and late night eating establishments don't lose guest activity for this period.
