QuantaSTAT

Create a Safe Environment for Your Teams
Provide your employees the confidence of knowing they are safe around the clock, reducing stress, increasing engagement, and improving outcomes.

Protect Your Team's Health
Whether at a healthcare facility, warehouse, or office building, organizations need a strategy to mitigate COVID-19 risk. QuantaSTAT for Teams is a HIPAA compliant COVID-19 monitoring solution that helps employers efficiently and securely pre-screen employees before they even set foot in the door.

Empower Your Team
Make the pre-screening process simple and secure for your employees and protect employees' privacy with QuantaSTAT's HIPAA compliant platform.

QuantaSTAT Features

- Daily Symptom Tracking
- Easy to Use Mobile App
- Digital Triage
- HIPAA Compliant

Keep COVID-19 Out of the Workplace

Mitigate Risk
Prevent COVID-19 transmission by screening for multiple risk factors.

Pre-Screen Securely from Home
Monitor symptoms, test results, vaccinations, and other risk factors before arriving at work.

Employee Privacy Protection
HIPAA Compliant platform keeps employees' information private and secure.

Take Action Immediately
Your employer dashboard gives employers real-time monitoring of the entire team's health status.

Customize to Your Specific Requirements
Customize criteria, communication, real-time reporting, and alerts to meet your specific requirements.

CDC and OSHA Guidelines
The CDC and OSHA recommend daily employee self-screening protocol enabled by the QuantaSTAT platform.
