Push Button Trading Launches Account Dashboard and Advanced Trade Copier Tool

Push Button Trading is thrilled to announce the launch of its cutting-edge Trade Copier tool, now available to its premium members. This advanced tool empowers traders to scale multiple funded, personal, or simulated accounts with ease, offering both market orders or exact order type duplication across all accounts. Designed for traders looking to optimize their strategies across accounts, the Trade Copier delivers seamless risk management features, real-time account performance tracking, and an intuitive interface that ensures every trade is executed with precision.

The Trade Copier's comprehensive account dashboard brings a suite of powerful features to the fingertips of traders. Users can copy trades to unlimited accounts, execute trades with market order or specific order types, and scale the size/quantity of trades copied to each follower account. The tool also includes features like copying trades only from selected symbols, open and realized P&L visibility, as well as daily goal/loss settings. Traders managing funded accounts will benefit from insights into progress toward funding, breach amounts, and liquidation levels. Built-in security prevents conflicting trades, while a "FLATTEN ALL" button allows traders to instantly close all positions across accounts when needed.

Designed to enhance the trading experience for Push Button Trading Premium members using funded accounts, the Trade Copier tool provides unmatched flexibility and control. Whether you're managing a portfolio of funded accounts or looking to expand your strategies with funded accounts, the Trade Copier tool offers a streamlined, secure solution to amplify trading performance.

About Push Button Trading
