LayerHost™

LAYERHOST (LAX01) DATA CENTER

LayerHost's LA2 data center provides unmatched scalability within the L.A. market. Providing the gateway of U.S. communications traffic to and from the Asian continent, our LA1 data center (One Wilshire) and LA2 data center support the Any2Exchange® for Internet peering—the largest peering exchange on the West Coast, CoreSite's Open Cloud Exchange, AWS Direct Connect and access to over 185 carriers.
