

NEWS RELEASE

Sparton Corporation Relocates its Corporate Headquarters to De Leon Springs, FL.

De Leon Springs, FL ~ September 8, 2020 – [Sparton Corporation](#), a leading provider of sonobuoys for the US Navy and engineered products for the defense industry, today announced the relocation of its headquarters from Schaumburg, Illinois to its primary manufacturing facility in De Leon Springs, FL.

The relocation is a reflection of Sparton's belief in and commitment to Volusia County, and its diverse and highly talented community of professionals and skilled work force.

"Sparton has had a significant presence in De Leon Springs for more than three decades and we have always been impressed with the talent, expertise and dedication of the workforce in our De Leon Springs facility. Several of our employees have been here for more than 30 years and we are proud to formally recognize De Leon Springs as our headquarters" stated Bill Toti, President and Chief Executive Officer of Sparton.

With its 120-year history and decades of defense experience spanning from World War I, Sparton has become the partner of choice for domestic and international defense applications. As a pure-play defense supplier, Sparton focuses exclusively on providing best-in-class, innovative solutions and executing on strategic opportunities to build upon its market leadership.

About Sparton Corporation

Sparton designs, develops, and produces proprietary products for domestic and foreign defense, and commercial needs. The company is comprised of three divisions with a range of engineered products spanning sonobuoys to inertial systems to ruggedized displays and rugged computers.

Sparton Undersea Warfare Solutions division is a world leader in the design, development, testing and production of complex maritime electronic mechanical systems, including sonobuoys in support of Anti-Submarine Warfare, submarine deployed products supporting Undersea Warfare, and depth-rated encapsulated systems to support Subsea and Seabed Warfare. Sparton Aydin division is the industry leader in the design development, testing

and production of ruggedized displays for military and industrial use. Sparton Stealth division is a leading manufacturer and supplier of industrial computer components, and industrial-grade small form factor PCs.
