

ACCESS YOUR WEB PORTAL AS LOCAL

With the TSplus New
Progressive Web App

New!! Our Web Portal can be installed as a Progressive Web App on any device.

The ongoing COVID-19 crisis has created new workplace paradigms and moved thousands of workers from the Corporate Office to the Home Office...

Your organization needs a solution that provides a user-friendly, reliable and secure remote working environment that can be accessed from anywhere.

With the TSplus Web Application Portal, Application Delivery from a centrally managed server is easy and simple! Give your users access to multiple assigned applications from a single secure HTTPS web interface. The portal is compatible with most common web browsers and customizable to reflect your company requirements. **It's the optimal 100% online workspace!**

Give your users the ultimate remote work experience: their office just a tap away, wherever they are.

The TSplus Web App is included in TSplus Mobile and Enterprise editions.

TSPLUS WEB APP ELIMINATES BROWSER ISSUES AND OFFERS THE SAME BENEFITS AS A NATIVE APPLICATION, AND MORE:
