

THE BUSINESS DRIVEN PMO

Friday 12th June
Central London
1 Day Workshop
***Early Bird £360**

***book by 5th May**

A PMO workshop designed to help your PMO reach the next level of performance and deliver exceptional results

Workshop Overview

- Find out how the PMO can facilitate effective collaboration across the many different project stakeholder groups involved in managing the lifecycle of change.
- Learn practical methods and tools that can help your PMO develop and maintain a higher degree of strategic, functional and cultural alignment to improve operational efficiency and effectiveness.
- Learn practical tools that will allow their PMO to drive organisational value through portfolio execution.
- Learn how to align project execution with strategy to create the concept of 'sub-portfolio management'
- Learn how emerging trend - strategic resource management can help an organization deliver integrated execution

Specifically designed to engage **PMO managers and senior stakeholders** who are ready to introduce or advance their company's PMO to the next level of performance and value.

Whether you are a seasoned PMO executive or have been tapped to launch a PMO for the first time, this workshop offers proven concepts, approaches and practices that go beyond traditional methods.

The one-day agenda is delivered by internationally-recognized experts and consistently receives rave reviews by attendees. Participants leave excited and armed for immediate action.

Workshop Hosts

With three decades as a practitioner and consultant, **Terry Doerscher** is an internationally recognized expert in Enterprise/Project Portfolio Management (EPM/PPM). His contemporary work is widely recognized as a catalyst for redefining the role of the modern corporate PMO. He is the co-author of the award-winning book *Taming Change with Portfolio Management*.

Andy Jordan has a track record of success managing business critical projects, programs and portfolios in Europe and North America in industries as diverse as investment banking, software development, call centers, telecommunications and corporate education. Andy is an in demand speaker and moderator who delivers thought provoking content in an engaging and entertaining style, and is also an instructor in project management related disciplines.
