THE POWER OF RHYTHMIC HORMONE REPLACEMENT

JULY 25TH FROM 8AM
TO 5:30PM

HOTEL IRVINE

17900 Jamboree Road, Irvine, CA 92614

COST

\$595.00

Dr. Brett Jacques, ND

Dr. Julie Taguchi, MD
Oncologist/Hematologist

Caren Abdela

Learn about the protective impact upon genes that are activated by the Body's Natural Menstrual Cycle!

This one-day workshop will provide practitioners with the scientific knowledge regarding some of the genetic and molecular biological sequences that accompany the fluctuating hormone levels of a woman during her normal menstrual cycle.

Practitioners will learn about the novel pharmacological approach of rhythmic hormone restoration to help recreate these sequences.

OBJECTIVES

- Review the hormonal changes that women and men manifest with aging, and their negatively associated impact on chronic diseases.
- Review the cyclic nature of hormones as they relate to the menstrual cycle, and their molecular biological and genomic effects to turn on the body's natural cancer fighting genes.
- Learn how to pharmacologically replace the menstrual cycle using rhythmically doses hormones.
- Learn how pharmacologic restoration can build bone density.
- Understand the difference between low dose static hormone replacement and rhythmically dosed hormones.
- Review landmark studies regarding hormone replacement therapy and cancer risks from an oncologist's view point
- Review 10 year cancer data for rhythmically dosed hormones.
- Review clinical management guidelines regarding utilization of rhythmically dosed hormones.

PROGRAM SCHEDULE

Registration & Continental Breakfast
8:00am-8:30am

Introduction to Rhythmic Restoration of Hormones for Women
8:30am-9:00am

Activation of p53
The Guardian of the Genome
9:00am-9:15am

The Importance of the Rhythm
The Molecular & Genomic Affects of the Menstrual Cycle
9:15am-9:30am

Estradiol, Progesterone and Testosterone Dosing & Monitoring for Women
9:30am-10:00am

BREAK
10:00am-10:15am

Clinical Management, Evaluation and Treatment of Rhythmic Dosing for Women
10:15am-11:00am

Hormones and Breast Cancer
11:00am-11:20am

Estrogen and The Heart
11:20am-11:45am

Case Studies and Q & A
11:45am-12:30pm

Lunch
12:30pm-1:30pm

Introduction to Rhythmic Restoration of Hormones for Men
1:30pm-2:00pm

Testosterone and DHEA Dosing & Monitoring for Men
2:00pm-2:15pm

Testosterone, and Prostate Cancer
2:15pm-2:30pm

Testosterone: The Heart & Diabetes
2:30pm-2:45pm

BREAK
2:45pm-3:00pm

Optimal Thyroid Hormone Replacement Strategies
3:00pm-3:30pm

Clinical Management of Adrenal Insufficiency
3:30pm-4:00pm

Case Studies and Q & A
4:00pm-5:30pm

All Topics will be presented by
Caren Abdela, Drs. Julie Taguchi & Brett Jacques as a team.
