cloudneeti

Continuous Cloud Security and Compliance Assurance

for Microsoft Azure, Amazon Web Services and Office 365

COMPANY

A Gartner recognized cloud security and compliance product company dedicated to identifying and eliminating cloud risks

PRODUCT

Financial Services organizations handling PII (Personally Identifiable Information) and Financial data with regulated cloud workloads will now be able to get **instant visibility** into their security posture and **enforce compliance** with applicable regulations, data protection laws, and security standards using Cloudneeti's Continuous Cloud Assurance platform.

CUSTOMERS

Enterprises, Managed Service Providers (MSPs) and Independent Software Vendors (ISVs) in the Healthcare Industry that store and process healthcare data. Decision makers across that span the IT and GRC roles who need to achieve and maintain cloud security controls.

Information Security	Risk & Compliance

DevOps	SOC	Advisors	Auditors

MISCONFIGURED CLOUD IMPEDES DIGITAL TRANSFORMATION

Organizations are challenged to (a) prevent security breaches and (b) prove compliance for public cloud workloads

Misconfiguration of cloud workloads	62%
Unauthorized access	55%
Insecure interfaces/APIs	50%
Hijacking of accounts, services or traffic	47%
External sharing of data	39%
Foreign state sponsored cyberattacks	33%
Malicious insiders	30%
Malware/Ransomware	26%
Denial of services attacks	22%
Theft of service	12%
Lost mobile devices	7%
Other	7%

GARTNER RECOMMENDATION

" Through 2024, organizations implementing a cloud security posture management (CSPM) offering and extending this into development will **reduce cloud-related security incidents due to misconfiguration by 80%**

- Gartner

Offer Overview

PRODUCT CAPABILITIES

Various product capabilities enable proactive management of cloud risks

Single Sign-On

Visibility
- Security Posture
- Compliance Posture
- OS Security Policies
- Risk Posture Prioritization

Governance
- Cloud Security Policies
- Compliance Frameworks
- Remediations (Auto, Guided)
- Policy Exceptions

Administration
- Users & Roles
- Cloud Accounts
- Scan Frequency
- Notifications

Integrations
- Data Feeds
- Co-branding
- Ticketing
- CI / CD

🔒 **Cloud Connectors** (Control Plane APIs)

Azure	Office 365	AWS	Google (roadmap)

Items marked with 🔒 have limited capabilities as below
Eligible customers can request for limits to be removed/relaxed for the evaluation period. Offer is subject to change

LICENSE QUOTAS & RESTRICTIONS

Below SKUs indicate the number of cloud accounts pre-allocated per License

Healthcare_1	Includes a total quota of any one (1) cloud account across any cloud connectors.
Healthcare_5	Includes a total quota of any five (5) cloud account across any cloud connectors.
Healthcare_10	Includes a total quota of any ten (10) cloud account across any cloud connectors.

For all SKUs, there's a soft-restriction on the number of resources within a cloud account

Restriction: **Azure and AWS** - Up to 500 total resources, **Office 365**: Up to 1000 users

COMPLIANCE BUNDLES INCLUDED
