

# Let your students love what they're listening to, at a safe volume

Improve voice and sound clarity for story listening, interactive curriculum, speech and reading assessments

The new AE-25 is the latest addition to AVID's product line focusing on addressing the audio and comfort needs for PreK-2nd grade students.

- Provide a safer listening environment with speakers designed to keep sound levels below 85 dB when used with most common devices
- Reduce tampering and damage of microphone when not in use by clicking it into headband clip, *SideKick™*
- Lightweight, soft, padded construction for longer use and less fidgeting by students to remove the device
- Extra durability from improved strain relief helps protect from stress, pulling and damage of wires and cable
- Multi-use design maximizes functionality as a headset and headphone in one, by moving boom microphone up along the headband into *SideKick™*
- Includes travel pouch for convenient on-the-go storage
- In compliance with safety certifications

**Who We Are** Founded in 1953, AVID is a 100% employee-owned company devoted to developing mindful audio solutions designed to enhance life's experiences. We believe being there for our partners and customers every step of the way is what leads to success.
