PACKAGES THAT ADAPT

We have three basic packages to offer, or ask for a custom proposal to better suit your specific needs.

STANDARD

For customers who have limited needs or budgetary/time constraints, this package ensures that a customer receives advanced professional services required to be successful with integrating AccuZIP's enhanced features and APIs into their current workflow. Included is 5 hours of custom programming typically used for Commands, Scripts, Advanced Merge/Purge Data Manipulation Requests and basic API and Third Party integrations. This package covers setup and configuration, familiarization with created tools, and live online training.

PERFORMANCE

For customers who have more complex and custom configurations, this package will yield tangible results in a short period of time. This package is ideal for customers with multiple users and/or those who plan to take advantage of multiple AccuZIP integrations, APIs, UI development needs, and using other add-on modules. It includes all of the available services of the Standard package plus advanced integrations into third-party applications using AccuZIP APIs, Open Source, and custom reports and data grooming techniques.

PRO

For customers with more users, more seats, and/or who expect to exploit the complete AccuZIP Enterprise solutions feature set including advanced API and Third Party integrations. With the Pro Package comes additional online training and time allocated for custom programming, third-party API integration, and UI development. This package also includes full-service consulting and mail management services including access to postal and mail optimization experts.
