

Hi, my name is Mark Willis and I am the Founder of the Hearing Awareness Foundation. I created this foundation because I have needlessly struggled with hearing loss my entire life. I was diagnosed at the age of 12 with hearing loss but waited until I was in my mid-forties to do anything about it. I didn't know that there were solutions nor did I understand the long term devastating effects. Now it is my passion and the passion of the Hearing Awareness Foundation to spread awareness that there is hope and there are solutions.

Today, unfortunately, nearly 40 million Americans have hearing loss. Chances are that you or a loved one are among these. The good news is that you can do something about it. Please accept this as my personal invitation for you and your spouse (or a loved one) to attend this free hearing educational experience that is both informative and entertaining.

A delicious complimentary dinner or lunch will be served to make it even more appealing and comfortable. We don't solicit donations (in fact we will not even accept them if you tried) and we don't allow anyone to sell anything at this event. This way you can really relax and feel comfortable while enjoying the conversation and the education. Most of all you will find solutions and with this knowledge be able to improve your quality of life.

I know you will enjoy the experience! Oh, and I insist that you please bring your spouse or a loved one...it's that important.
