

Our comprehensive solution is designed for the college student.

Today's college student is bombarded with stress, anxiety and illness more than ever before, leading to longer wait times and lower graduation rates. Give your students the quality care they need by phone, video or mobile app!

Student Assistance

Our confidential, short-term assistance provides the right tools to help students through some of life's toughest challenges.

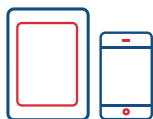

Mental Health Care

Choose a therapist, date and time to meet and talk to a quality therapist as many times as you need to get better.

Telemedicine

24/7 access to doctors who can diagnose and prescribe medication, successfully resolving over 90% of all calls received.

Dermatology

Upload images and speak with a doctor in hours who can treat acute and on-going skin conditions.

Sexual Health

Test for common STIs with a local lab. Confidential results are typically provided in 3 days or less.
