IMPORTANCE OF GEORGIA

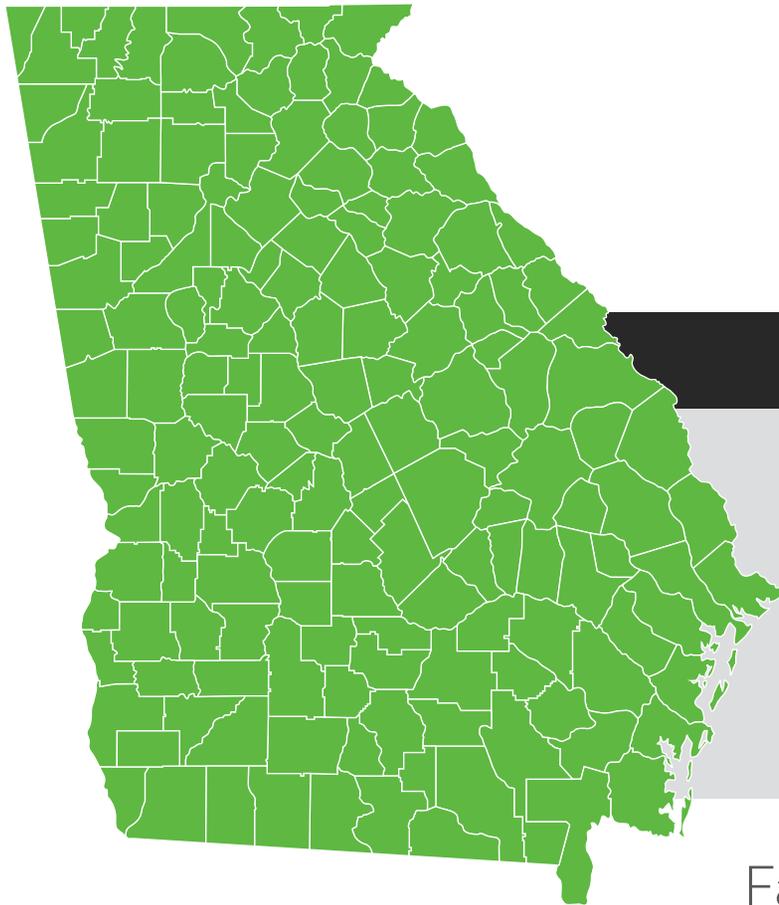

Meet 2022's most important swing state — Georgia¹

[In Georgia] the GOP has weaponized Donald Trump's 2020 election lies to make voting hard in this cycle and beyond.²

With a key Senate seat and the governor's mansion on the table this year, Georgia is again at the center of the political universe...³

...the story is clear: Biden won Georgia because he did really well in the Atlanta area, far better than Obama eight years ago and significantly better than Clinton, too.⁴

Political observers see race for Georgia's Senate seat as key to balance of power⁵

2020 OUTCOMES

- ✓ 2 Senate Seats Changed Party
- ✓ President Biden Won

The right of the people to vote is in jeopardy.

IMPORTANCE OF GEORGIA

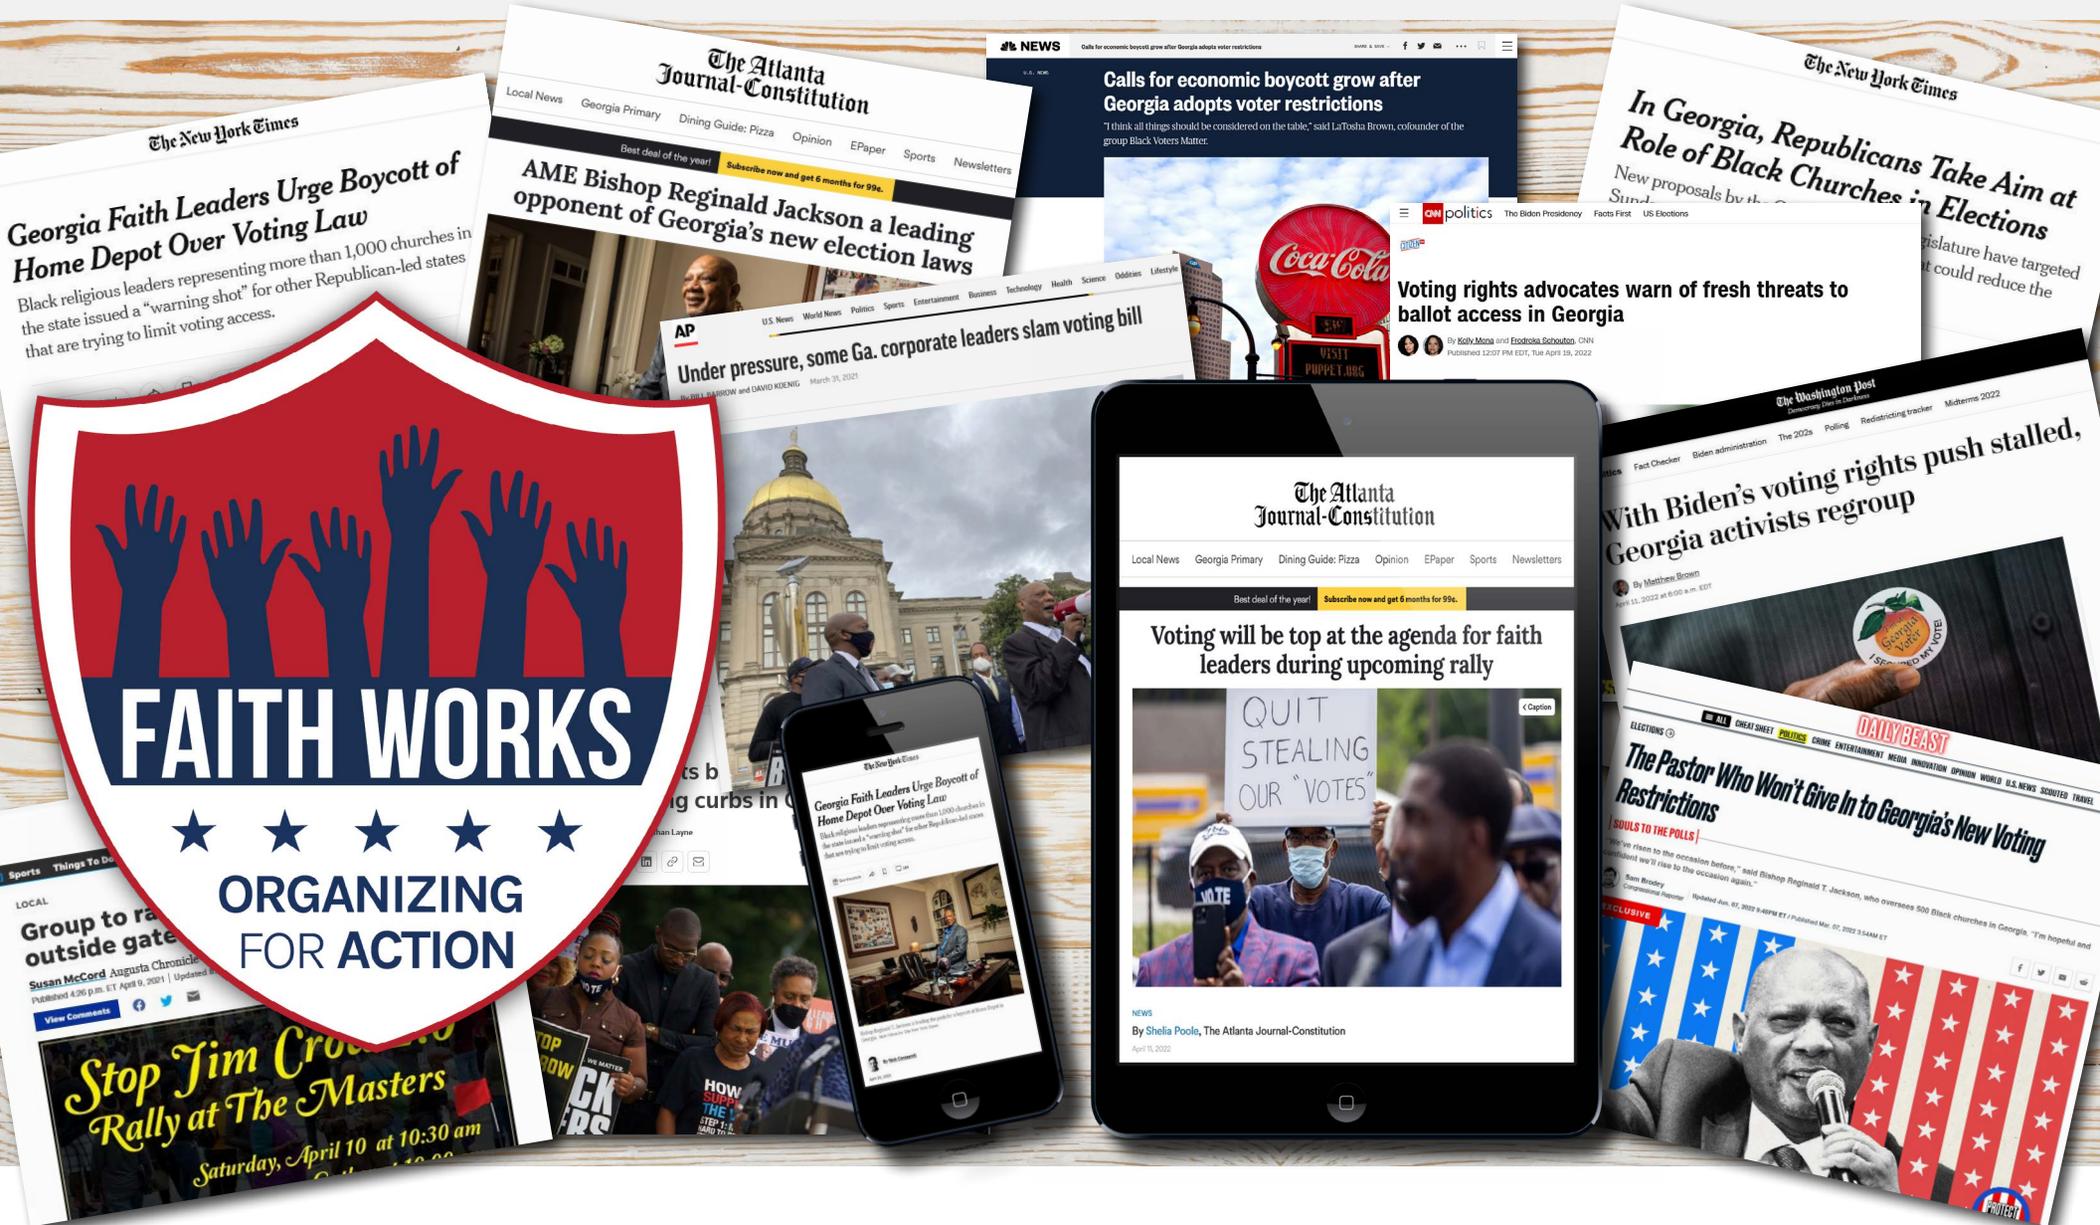

To counter the **historic voter turnout** by Georgia's African-American community in 2020, extremists in Georgia constructed a false and unsubstantiated narrative around "voter fraud," spending millions of dollars to ramrod the **unneeded legislation called SB202, without debate or discourse.**

The legislation significantly **diminishes the ability** to request and submit absentee ballots, **minimizes voting opportunities across the state**, makes it a crime to offer food or water to people waiting in long lines to vote and places politicians in control of the State Election Board.

Regardless of political affiliation, we believe, the SB202 anti-voting legislation now puts the extraordinary participation of African American and other voters at risk and **challenges the fundamentals of our great democracy.**

FIGHTING BACK AGAINST SB202

Faith leaders are fighting back against SB202. We led the way in 2020, we will do it again.
