

Higher Standards for Quality Healthcare

- Help your community mitigate the risk of contagious infections
- Most current quadrivalent seasonal influenza vaccine
- The trivalent vaccine has already been phased out of the offering for the more effective quadrivalent seasonal influenza vaccine.
- CVS MinuteClinic™ requires Nurse Practitioners, and Physicians' Assistants administer all vaccines
- Held to higher educational levels for immunizations than pharmacists

Customer Service Tip

Our help desk remains staffed from 7:00 am to 5:30 pm central time to assist you.
817-SEC3URE (732-3873) #1 or
CustomerService.US@IntelliCentrics.com

- IntelliCentrics encourages you to check with your insurance company to determine if you have coverage.
- If you think insurance already adequately covers you, the plan remains an option for your flexible spending accounts.
- Where insurance does not apply or is not convenient, vouchers are available for purchase from www.IntelliCentrics.com and can be redeemed at any of the CVS MinuteClinics™.
- Additional vaccination vouchers will be available for purchase by premium members for their friends and family.

IntelliCentrics is uniquely qualified to help hospitals and healthcare organizations maintain a safe and SEC³URE environment so they can provide the best possible patient experience. A security company with over 20 years of experience with the most requested and referenced standard for healthcare vendor credentialing.
