April 14, 2020

To Law Enforcement and Public-Safety Professionals:

CODY Systems, a respected, family-owned company with a 41-year history of serving public safety agencies is excited to announce its COBRA.net #HealthRisk Notification Ecosystem. *#HealthRisk notifications are available as a no-cost expansion to COBRA.net.*

Law enforcement, homeland security, fire, EMS and public health personnel routinely face threats to their health and safety, but exposure to COVID-19 presents unprecedented risk. CODY Systems has adapted its data-driven COBRA.net platform to allow users across states, regions and counties to create real-time alerts and network-wide searches based on a new #HealthRisk tag added to any relevant records in their respective databases (RMS, JMS, EMS, etc.). **This new functionality can help ensure front line personnel are promptly alerted to potential COVID-19 exposure when responding to calls for medical aid, conducting traffic stops and performing other duties involving community engagement.**

COBRA.net enables real-time data integration, exchange and sharing via 'one stop' querying across data sources, regardless of vendors or systems. Now, with the addition of the #HealthRisk Notification Ecosystem to COBRA.net, CODY has created a true pro-active cross-agency early warning system. By deploying or expanding COBRA.net implementations, agencies can include additional **RMS, CAD, JMS or other systems** of neighboring jurisdictions as well as **authorized person/location information from patient contact records and state department of health data sets*.** With COBRA technology, these datasets can become part of the #HealthRisk real-time alerting and unified search ecosystem and **provide a sorely needed level of potential exposure awareness to first responders.**

*NOTE: If your agency is receiving health/COVID data in an unstructured or unusable format (e.g. PDF), we are eager to discuss a quick, no-cost solution to transform it into discoverable and searchable data.

Please contact CODY at 610.326.7476 or email info@codysystems.com for more information. Thank you for all you do to support our communities.

Sincerely,

Frances N. Heffner, **President**   David N. Heffner, **Executive Vice President**
