

# NASH KNOWledge

THE SILENT EPIDEMIC

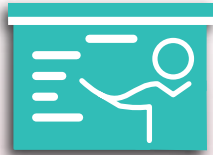

## Silence Has Never Been Louder!

Help Us Increase Fatty Liver Disease Awareness

### OUR VISION

Prevent or reduce cases of Non-alcoholic Fatty Liver Disease, improving the lives of those at risk and minimizing the need for liver transplant

### OUR MISSION

Increase awareness and provide educational resources regarding Fatty Liver Disease to the general public, those at risk, and those diagnosed

### OUR CORE BELIEFS

- Lack of awareness is the key driver in the growing incidence of Fatty Liver Disease
- Linkage between a healthy liver and nutrition must be emphasized
- Focus on children will lead to increased awareness in adults
- Increased awareness and education will ultimately drive action

### OUR 2024 PRIORITIES

- Provide resources and education to the Hispanic/Latino community regarding Fatty Liver Disease
- Provide resources to parents and children regarding Fatty Liver Disease and the linkage between nutrition and liver health
- Increase overall awareness and education regarding Fatty Liver Disease
- Continue to grow our Liver Disease Support Group
