

ENCLOSURE MODIFICATIONS

Largest selection of non-metallic enclosures
Custom services designed to meet your needs

MONEY

We have all the tools necessary to perform modifications, saving you from outsourcing the work or buying and maintaining additional machinery.

TIME

Don't allow time-sensitive projects to be held up. Our high capacity modification center is designed to get product out as fast as possible.

LABOR

Let us handle the enclosure so you can focus on everything else. Modified enclosures ship to your door ready to plug into your application.

Quality-Focused Engineering

- Digital printing
