

NEXT GENERATION BACKPACK

We've taken a normal backpack and turned it into an essential tool for anyone from age eight to eighty. With a powerful battery system, it is an electronic powerhouse, a communications hub, and more so, storage for everything from a third grade report to a prospectus for an IPO.

Personal **Wi-Fi** Hotspot

With the capability to connect to a reliable 3G or 4G network, you can have your personal Wi-Fi connection that also serves as an exclusive internet hotspot for up to six friends.

World's Smartest Backpack

Tesla-Style **Battery** System

Arguably one of the most powerful portable battery system, live in a reality where you always have a source of power to charge your smartphone, tablet and notebook - all at once.

We're launching the iBackPack™ soon through crowdfunding platform - Kickstarter

The goal is to get people as excited as we are about this project - we want you to be part of something special! We will be launching our KickStarter campaign and we will have surprises in store for you as gratitude. Every bit of help is important to us to get the final goal realized - to get the iBackPack™ on your back! Join us in this great adventure!

If you want to participate in the making of this revolutionary project,
VOTE for the features you want on your iBackPack™
