

The Universal Integration Platform for Microsoft Dynamics ERP

- ✔ Connects with virtually all eCommerce, EDI, & CRM partners & thousands of data touch points
- ✔ Streamlines item, order & customer processes, reducing total cost of ownership
- ✔ Exchanges data bi-directionally in real time, on a defined schedule, or ad-hoc

ERP Integration Made Easy

eBridge Connections powers the only cloud-based, universal integration platform for Microsoft Dynamics ERP users. We've integrated the largest number of data touch points in the industry, leveraging pre-built connectors for 20+ eCommerce platforms and marketplaces, thousands of EDI trading partners, and the leading CRM applications. With over 20 years of experience and hundreds of active customers, eBridge Connections has become the integration platform of choice for Dynamics-driven businesses worldwide.

BUILD A DYNAMICS INTEGRATION BLUEPRINT

Would you build a house without a blueprint? Of course not. So why should your business or your clients deserve any less. Create a Dynamics integration blueprint today using our Blueprint Builder. Visit ebridgeconnections.com/blueprint to start building.

Microsoft Partner
Gold Application Development

FEATURES

- ✔ Bi-directional, automated integration of sales orders, customer information, shipping data, product information, etc. between your Microsoft Dynamics ERP and connected business platforms
- ✔ A fully-managed solution with connectivity, data translation and compliance all handled in the cloud; no on-premise software is required
- ✔ Shared business rules replace the need for mapping and reduce the total cost of ownership
- ✔ ePortal - a web-based application where you can manage all of your documents and search your data history
- ✔ Unlimited, 24/7 access to our Canadian support team

BENEFITS

- ✔ Eliminate manual data entry and avoid costly mistakes by automating both inbound and outbound document processing and posting
- ✔ Increase the speed of information exchange, improving customer service efficiency and satisfaction levels
- ✔ Add or change your eCommerce connections, manage your business rules, or upgrade your ERP with ease
- ✔ Free up time and resources to focus on what your company does best
