TEMA HOME UNVEILS DANN SIDEBOARD

LISBON (January 29, 2015) – TemaHome, a global premier manufacturer and designer of fine home furnishings, presented the [Dann Sideboard](#), a pure expression of the label's focus: beauty can be as much aesthetic as functional.

The [Dann Sideboard](#), by the French designer Rodolphe Castellani, is a tribute to traditional Scandinavian design of the 60's with the sobriety of the product lines and natural feeling of the wood veneer. Also playing with their geometry and proportion, the sideboard can offer a new and original ways of storage multimedia: with glass doors, it is ideal to keep away from sight audio/visual components such as satellite boxes and DVD players. The components stay hidden while the user remains in full control.

Also available is a [matching coffee table](#).

Sleek simplicity with a distinctly bold streak, Portuguese label TemaHome has spent over 30 years mastering the mix of passion, experience, and creativity behind each of its collections of inspired and timeless forms. The designs presented in the latest catalogue, by some of the most renowned Portuguese designers, such as Fernando Brízio and Filipe Alarcão, include furniture, upholstery and accessories for the living room, dining room, home office and bedroom, are now available online for worldwide deliveries.
