

PRESS RELEASE

**The Sacramento Dentistry Group Introduces Cheng Lee, RDH**

SACRAMENTO, CA—February 23, 2015—A valuable member of the Sacramento Dentistry Group staff, Cheng Lee is a local graduate of the Sacramento City College dental hygienist program. Since high school, Mr. Lee wanted to study for a dental career. He enjoys educating people about caring for their dental health, a primary responsibility for every dental hygienist. Mr. Lee joined the downtown dental office staff in part because he appreciates the philosophy of the Sacramento Dentistry Group.

Dr. Brian Steele, DDS, the leading dentist with the group, explains their three important principles as:

- 1. Maintain High Standards**  
The Sacramento Dentistry Group wants to understand and use the latest techniques and technologies available for its patients. In connection with this goal, the group seeks to provide the highest standard of care available for its customers.
- 2. Educate Ourselves and Our Patients**  
Having spent many years educating themselves about dentistry, the staff wants to share that knowledge for the benefit of its clients. Continuing education is encouraged and constantly implemented to improve service.
- 3. Create a Positive Environment**  
Strive to create a positive environment every hour of every day for our patients, families, friends, neighbors and colleagues.

Mr. Lee demonstrates the third principle in his own life by actively engaging in activities with the local Hmong community. When he is not working or volunteering locally, Mr. Lee enjoys the many recreational opportunities in Northern California, especially those that bring him outdoors, and spending time associating with his family.

To meet Cheng Lee in person, schedule an appointment with the Sacramento Dentistry Group for a dental exam and cleaning, either by calling 916-538-6900, visiting their website at [sacramentodentistry.com](http://sacramentodentistry.com) or by visiting their convenient downtown office at 1105 E Street.
