

## **Press Release: StraVis IT Solutions becomes Dell Boomi Partner**

**Enhancing Business Process Automation for its customers with Dell Boomi's Integration Platform as a service solution.**

San Jose, California, USA - Oct. 28, 2015 - StraVis IT Services Inc. a Business Consulting and Information Technology Services Provider focusing on the implementation of Integrated Business Systems, specifically around SAP applications and technology, today announced becoming a Dell Boomi Partner.

Dell Boomi, a business unit of Dell, is the first integration solution built in the cloud to fully exploit the value of the cloud. Organizations of all sizes—from small businesses to the largest global enterprises—trust Dell Boomi to quickly connect any combination of cloud and on-premises applications. Dell Boomi specializes in providing a cloud-based integration platform and is a form of systems integration delivered as a cloud service that addresses data, process, service-oriented architecture(SOA) and application integration use cases.

As part of the partnership, StraVis and Dell Boomi will work together to leverage their strengths to provide better service to their customers.

*"We have experienced increased demand from our customers to provide application Integration, on-premises as well as in the cloud. Our partnership with Dell Boomi allows us to provide integrated solutions to our customers with increased security, stability and speed of development, at reduced costs. We find a perfect match in Dell Boomi as our Partner, for providing best-in-class solutions for all our customers."*

**-Ram Rishi, Managing Partner, StraVis IT Solutions**

*"With our AtomSphere integration platform, Dell Boomi provides StraVis the technology needed to successfully solve their clients' most complex integration challenges. Through this partnership, StraVis can now offer their customers both consulting and implementation services using the leading cloud integration platform."*

**-Chris McNabb, General Manager, Dell Boomi**
