GrowthZone AMS Announces Elevate LMS Software Integration

NISSWA, MN – July 7, 2020 – GrowthZone, an industry leader in association management software, recently added Elevate LMS to its suite of software integrations. A product of CommPartners, an established online education provider, Elevate LMS helps associations deliver engaging, quality education experiences that inspire the learner.

This integration empowers GrowthZone users to position themselves as the premier source for knowledge within their communities. Associations can fulfill their education strategy by providing a central knowledge community to drive member engagement and collaboration.

A GrowthZone user, the Building Owners and Management Association of Greater Los Angeles (BOMAGLA) has leveraged the power of the integration.

"At BOMA Greater Los Angeles, we use GrowthZone as our AMS solution and CommPartners' Elevate LMS for our Knowledge and Resource Center. The integration between GrowthZone and CommPartners works seamlessly for our members," said Mark Mina, BOMAGLA Member Relations Manager.

Rebecca Keyser, Elevate LMS Implementation Manager shared, "GrowthZone's team was great to work with during the integration process. Both systems work together easily to ensure that BOMAGLA provides seamless user experiences."

The addition of Elevate LMS furthers GrowthZone's mission is to empower organizations with the tools they need to grow membership, keep members engaged, keep members longer, and do more in less time.

About GrowthZone

A provider association management software, GrowthZone has helped over 3,000 member-based organizations grow and retain membership, generate revenue, engage and communicate with members and prospects, and streamline their day-to-day operations.
