

The natural purity and potency of cannabis flower captured in a single dose

At RA' Flower, our passion is to hand craft superior quality cannabis products for our patients and customers, offering the most effective, all-natural products that support healing and wellness. Because our products are made with 100% pure Sun grown Cannabis Flower, the most concentrated and medicinal part of the plant, you will experience the true therapeutic benefits of cannabis.

WHAT'S IN YOUR MEDICINE?

FACT: The vast majority of cannabis products in today's market are made with trim or shake, which contain only a small fraction of the medicine that is in the flower of the plant.

RA' Flower uses a patent pending "Micro-Dehydration" process to decarboxylate cannabis flower. Our process is chemical/solvent free and preserves the natural healing properties (terpenes & cannabinoids) of each strain, giving you the most powerful and effective medical grade cannabis products.

*Decarboxylate- The process of activating THC, converting (THCA ----->THC)

Follow Us

10mg individual hybrid capsules with 250mg THC per container. Also available in: 25mg & 50mg capsules.

Because our products are made with 100% pure Sun grown Cannabis Flower, the most concentrated and medicinal part of the plant, you will experience the true therapeutic benefits of cannabis.

WHAT'S IN YOUR MEDICINE?

FACT: The vast majority of CBD products in today's market are made with hemp or CBD isolate, which contain only a small fraction of the medicine that is in the cannabis flower.

RA' Flower uses a patent pending "Micro-Dehydration" process to decarboxylate cannabis flower. Our process is chemical/solvent free and preserves the natural healing properties (terpenes & cannabinoids) of each strain, giving you the most powerful and effective medical grade CBD products. Our unique products are crafted with medical grade CBD derived from the cannabis flower.

*Decarboxylate- The process of activating CBD, converting (CBDA ---->CBD)
