ORGANOCIDE[®] Plant Doctor

ORGANOCIDE[®] Plant Doctor[®] is an earth-friendly broad spectrum disease control and preventative for use on turf, fruit trees, vegetables, ornamentals and flowers. Prevents and cures a myriad of plant diseases, including those that cause downy mildew, root rot, leaf and stem blights, leaf spots and many others! A systemic product, it has a foliar or root application that will work its way throughout the entire plant to prevent disease and attack existing disease above and below ground. Once inside the plant, Plant Doctor[®] increases plant metabolism so plants grow faster, bloom more and have an increased yield while providing a nutritional boost of potassium and phosphorous, essential nutrients for plant growth.

Systemic Action: Fungicide moves throughout the entire plant to treat diseases as listed

- Controls Root Rot, Downy Mildew, Fire Blight & Black Spot
- For Use on Ornamentals, Flowers, Fruit and more

- Corrects Calcium Deficiencies Responsible for Blossom End Rot
- Contains Natural Sources of Nutrients for Firm, Tasty Tomatoes
- Supplemented with Iron, Magnesium and Calcium
- Can be Used on All Vegetables

Tomato Maker[®] 4-2-6 is a revolutionary fertilizer made with micronized nutrients, a technology far superior to old granular fertilizers. Fortified with iron, magnesium & slow release calcium that will correct deficiencies responsible for blossom end rot. Loaded with humates which stimulate root growth. Ideal for use from seedling stage to harvest. One 3 lb re-sealable bag will treat up to 30 plants the entire growing season. Tomato Maker[®] can be used on other fruits and vegetables too!

PLANT DOCTOR[®] MYCOSTIM[™] BENEFICIAL MYCORRHIZAL FUNGI

ITEM NO.	DESCRIPTION	CASE
700-094	1 lb. Bags	12

- Enhanced Growth & Nutrient Uptake
- Resistance to Transplant Shock
- Improved Plant Vigor

Mycostim[™] contains a blend of 8 super-strains of mycorrhizae spores and is fortified with amino acids, vitamins, sea kelp, humic and fulvic acids; all in a pharmaceutical grade cottonseed powder. The fungi colonize the root system, sending thread-like filaments throughout the soil that act as extensions of the root system. Thus, increases the root's ability to take up nutrients and water resulting in a more vigorous and stress resistant plant.

QUARTER PALLET DISPLAYS

Our quarter pallet point-of-purchase displays are a great way to merchandise two of our most popular products: Organocide® 3-in-1 Garden Spray and Tomato Maker 4-2-6. You can order complete displays for either product or go with the combo display (as shown).
