A Label For Quiet Hotel Rooms

Quiet Hotel Rooms › Quiet Room® Label ›

More Clients!

Excessive noise is one of the most frequent complaints in hotels. If your hotel has one or more really quiet rooms, this could give you a considerable advantage over the competition. Especially in an era when guest reviews on Trip advisor and on social media are increasingly important for your reputation and commercial success.

Second hand smoke is unhealthy which is why people have a choice to book a nonsmoking room.
Why aren't noise problems given equal attention?

Guest satisfaction that is based on more than 53000 guests who stayed in hotels, name noise as the **#1 complaint**.

Across the hotel industry, the top three problems guests cited are:

Noisy Hotel / Room

Room Maintenance Heating Ventilation

AC Problems

Hotel travelers leaving and checking hotel reviews on the web it has become of utmost importance for hotels to give their guests a quietstay.

True or False?

A noisy hotel will upset guests more than bad WiFi

Sure, most guests may not thank hotel management out loud for the quiet room. But they will come back !

How much noise is acceptable? The Quietroom Label makes it clear!

According to the level of sound insulation, we will classify the rooms into category I, II or III of the Quiet Room® Concept. This will allow you to carry the Quiet Room® label and use it in all your advertising and promotional activities. You will receive the Quiet Rooms Available sign which you can put up at the hotel entrance. And we will give you the Quiet Room® certificate to be displayed on the reception desk.

 QUIET HOTEL

By carrying the Quiet Room® label you can achieve a better ranking in the search engines and attract more quiet-seeking clients

Does your hotel not yet meet the Quiet Room standards?

The Quiet Room® Concept guarantees a systematic approach to the noise problems in your hotel.

We use a very coherent 3-phased plan to work on the following issues:

- Assessment / Acoustic research
- Action plan / Advice / Design
- Realisation / Relief / Service

By carrying the Quiet Room® label you can achieve a better ranking in the search engines and attract more quiet-seeking clients

Let us measure the noise levels of your rooms and acquire the QRL label

The Quiet Room[®] Concept of the Knowledge Centre Sound Insulation (KGI) is a full service concept for durable renovation and sound insulation.

Does your hotel already have well insulated rooms and/or conference facilities? By letting us measure the sound insulation of your hotel and conference rooms you can obtain the coveted QRL label.

Restore the silence in your hotel and profit from the Quiet Room[®] Label

Hotel managers have claimed for years to be addressing the noise problem that really hurts business

Award Quiet Hotel Room Certificate

Amsterdam, The Netherlands

We are proud to announce the creation of the Quiet Room Ultimate Sleep Comfort concept.

Luxury hotels looking to offer their guests the best possible experience in terms of quietness and comfort can benefit from this all-inclusive turnkey concept, which combines the latest soundproofing technology with state of the art sleep- and comfort-enhancing methods based on scientific research.

Luxury hotels around the world are forever competing to offer their guests the best possible experience and finding new ways to entice them with ever more luxury and extravagance. Unfortunately, this does not always equal optimum soundproofing and sleep comfort, because even the top hotels frequently get negative reviews on this subject.

The Ultimate Sleep Comfort concept has been created to enable top hotels to indulge the wishes of their most demanding hotel guests and take the soundproofing and comfort of their most luxurious rooms to the ultimate level. It is also available as an upgrade for presidential type suites.

The USC concept includes certification to the highest standard of the Quiet Room® label as well as specific sound proofing measures with regard to ventilation and AC systems. It also encompasses a number of select features recommended by sleep experts.

By this information memorandum we like to provide you with some more information on the services of Quietroom-Service team in relation to the Quiet Hotel Room label. Quietroom-Service team is a strategic partner for Quiet Hotel Room Label.

Hotel owners and /or the hotel management may request for the Quiet Hotel Room Label for their hotel by contacting KGI-Groep in The Netherlands for an assessment.

In case there is a need to resolve any sound leak issues within the hotel, we as Quietroom-Service team may come on board to assist the client with specialized solutions. This will be done on a Design & Build basis to insure the desired final results. Sound measurements will be taken before, during and after the works.

By using KGI approved and selected materials Quietroom-Service team will guarantee a final reward; receiving the Quiet Hotel Room Label.

As the label may not always be the target goal, as a hotelier or building owner you must be proactive in solving sound issues to avoid complaining guests. Noise is in the top three of guest complains nowadays.

It is our aim to provide our clients with a minimum of three model rooms next to each other and resolve any sound issues. Based on different budgets this can be done on a different level per room. In case the corridors also needs attention we will redo a section of the corridor located towards the three rooms. The final measurements will show the effect of the works done in the areas.

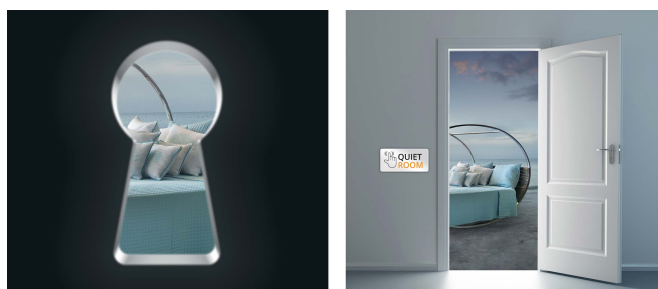

In case you are interested to work with Quietroom-service team, please e-mail us a short brief of your project and the specific sound issues. We will respond to your request at the soonest with a plan of action and our proposition.

We look forward to your reply and to work with you in the near future.

Kind Regards,

Lucas Keizer
