STRATEGIC FORECLOSURE AVOIDANCE

- Are you behind on your mortgage payments?
- Do you owe more than your home is worth?
- Are you unclear of what your real options are & what effect they will have on your future?

SHOCKING & SCARY FACTS & STATISTICS

37,000 people lose their homes every month due to bank foreclosures. 80% of all those who lose their home to foreclosure over can not afford an attorney to defend them. If they did pay an attorney do you know 98% of the time people hire the wrong type of attorney to defend them. Out of those people who get foreclosed on 61% don't ever fully recover financially. And another shocking fact is 100% of those foreclosed on can not get another loan for anything let alone a loan for a home for them or their families for a minimum of 3 years after the foreclosure. Do you know that half of all foreclosures happen due to job loss or some other major life crisis and the other half are due to homeowners being underwater and stop paying because they owe more than their home is worth? 78% of homeowners can not & will not qualify for a loan modification or government program and will be given the run around by their lender until time runs out & foreclosure is inevitable. Do you want to avoid all this stress, pain and financial destruction?
