Health Cloud

Purpose-built solutions to protect your workforce

Cority Health Cloud is purpose-built by experts across multiple health domains to provide the most comprehensive SaaS health & wellness software solution available. Offering the deepest feature set in the industry, we empower health professionals with the tools and insights they need to streamline, automate and improve industrial hygiene, occupational health, ergonomics and employee wellness operations to realize a healthier and better performing workforce at lower costs.

Key Solutions

- › Occupational Health Management
- › Case Management
- › Industrial Hygiene
- › Ergonomics
- › Mobile Solutions
- › Business Intelligence & Analytics

"Cority has helped us to dramatically improve internal communication, both in quality and ease of distribution. It has empowered management to take proactive measures once the system highlights perceived patterns in the occurrence of injuries and illnesses. Now, management can take proactive measures once "hot spots" have been identified, improving the health and safety of our workforce."
