

Performance Inspired Nutrition Has Partnered with ThinneX, a Modern Alternative to Weight Loss

Warrendale, PA (November 26, 2024) - [Performance Inspired Nutrition](#)—the active lifestyle, natural nutrition company who is helping to inspire people to live a healthier lifestyle—is proud to announce its partnership with ThinneX, the innovative leader in oral weight loss solutions.

ThinneX is an oral form of semaglutide, the same ingredient in the weight loss pills Ozempic and Wegovy. Semaglutide mimics a natural hormone (GLP-1) that regulates appetite, reduces hunger, and makes you feel full longer.

“Partnering with ThinneX is a natural fit for us, as we strive to inspire wellness. Their innovative approach to weight management gives our customers a simple and effective option to reach their goals, enhancing our mission,” said Sheila A Phillips, Chief Executive Officer.

Taken just once a day, ThinneX simplifies your weight loss journey while working towards results. Backed by cutting-edge science and manufactured in the USA, ThinneX is the smart choice for effective weight management with unparalleled ease and flexibility.

With ThinneX, patients enjoy a hassle-free experience, no needles and refrigeration required. This dissolvable oral tablet is designed for those seeking an effective, hassle-free alternative to injections. Now, through PI’s affiliation with ThinneX, Performance Inspired’s customers can get semaglutide at a discounted rate.
