

PeelVue™ PRO

Sterilization Pouches

The PRO pouch. For a professional approach to sterilization.

KaVo Kerr's PeelVue PRO pouches are the perfect answer to your sterilization needs, whether for the sterilization or maintenance of sterility of your dental instruments. PeelVue PRO is manufactured with a triple seal for increased strength against tears and fall-through. Validated for both steam and Ethylene Oxide sterilization, PeelVue PRO has separate indicators to communicate when pouch has undergone sterilization.

Features & Benefits

- A.** Triple seal for increased strength
- B.** Separate indicators for steam and EtO sterilization methods
- C.** Dotted perforation for easy visual guide when sealing pouch
- D.** Notch to assist with opening of pouch after sterilization

PeelVue PRO pouches are made with medical-grade, non-recycled paper and current with the packaging recommendations by the CDC. PeelVue PRO pouches have a 2-year shelf life from date of manufacture. Instruments sterilized with PeelVue PRO remain sterile for up to 6 months.
