

StraVis Enterprise Solutions announced EzySAP Solution for Higher Education Industry

Chicago, IL, USA – August 1, 2017 – StraVis Enterprise Solutions, a provider of innovative consulting, technology and application management services in the SAP space announced the release of EzySAP – Higher Education Solution.

Powered by Student Lifecycle Management solution of SAP, EzySAP for Higher Education offers the best-in-class solution for higher education institutions all around the world. This solution is an enhanced with new features based on the implementation experiences since original solution which was released in May 2015. StraVis' global experience in implementing SAP's Student Lifecycle Management and its in-depth knowledge of challenges & opportunities, led to the development of this enhanced solution.

“We are very excited about the EzySAP for Higher Education solution which helps customers in Higher Education Industry. Our solution is packed with components that can really accelerate the implementation with 30-40% savings for the customers. Our plan is to take it to the next level on SAP S/4 HANA in the next release that we are targeting in the next 6 months” said Sudarsan Thyagarajan, Senior Vice President, StraVis Enterprise Solutions.

EzySAP for Higher Education covers Student Records, Student Portal, Student Financials, Academic Structure, Human Capital Management, Financial Accounting, Materials Management, Management Accounting and many other industry specific features. This is an integrated solution that covers all aspects of Student Lifecycle and Campus Administration, key process scenarios needed by colleges and small private Universities there by Unifying students, faculty and staff with information and processes and improving end user productivity.
