# Movavi Screen Capture Studio

Movavi Screen Capture enables you to record everything that happens on your screen, transform recordings using the powerful video editor, save files in any format, export them to your mobile device, or upload online – all this in one program!

- Capture screencasts, online video, web cam, video chats
- Record smooth video at up to 60 fps
- Set recording parameters: change speed, adjust capture area
- Capture keyboard and mouse actions
- Record sound from multiple audio devices simultaneously
- Easily grab and edit screenshots
- Edit videos: manage multiple video and audio tracks on a timeline
- Apply special effects and filters, add titles and music
- Record sound and voice narration
- Save screencasts in popular media formats, or convert them for mobile devices
- Save videos in mere seconds in the SuperSpeed mode
- Share your creations online on YouTube
