Mobile Friendly

Engage participants easily with responsive web design on any screen size!

- The CoreHealth platform has been optimized to fully support a responsive design meaning end users can view/access all platform functionality from any device or desktop computer.

- **MyWellApp** is a CoreHealth-branded native application for Android and Apple devices and is available for download on the **Apple App Store** and **Google Play** for a traditional "App" install.

- The option to brand the CoreHealth native application with your own company brand is available for an additional cost.

Available on the **App Store**

GET IT ON **Google play**
