

## **iC Consult Expands to Spain**

### **With new offices in Barcelona and a large team of experts, iC Consult Iberia is looking to conquer the Spanish IAM market**

**Munich – February 22, 2023** – iC Consult Group, the world’s leading managed services and consulting company in the field of Identity & Access Management (IAM), has opened new offices in Barcelona, Spain, and is setting the course for further growth in Western Europe: iC Consult Iberia – the group’s Spanish subsidiary – is now offering iC Consult’s full consulting and service portfolio and growing its team to expand its footprint in the market.

Seated in Barcelona, the subsidiary will be managed by Regional Director Oscar González. The renowned security expert with over 25 years of identity experience is leading a team of currently 28 IAM consultants, technology experts and developers in Spain.

iC Consult's proven ability to provide global IAM services and their strong alliances with the main vendors in the industry – combined with the expertise and the deep understanding of the Iberian market which the new team in Spain brings to the table – offer leading organizations in the region a strong incentive to select iC Consult as their trusted partner for their IAM deployment projects.

Andreas Neumann, CEO of iC Consult’s DACH organization, comments: “We have been active on the Iberian Peninsula for several years, but until now, the focus has always been on Spain as a nearshore location for European development projects. Now that Oscar and his team of well-connected and highly experienced identity experts have joined us, we are looking forward to significantly expanding the scope of our sales activities in the region and to taking our business in Spain, Portugal, and Andorra to a new level.”

Oscar González, Regional Director iC Consult Iberia, adds: “Due to security and regulatory compliance concerns, the Identity and Access Management market in Spain is expected to expand rapidly over the coming years. With our new local presence in Barcelona and our strong global managed service offering, we are one of the very few pure-play IAM specialists in the region, and we see ourselves excellently positioned for future growth.”

Dr. Heiko Klarl, Chief Marketing and Sales Officer at iC Consult, adds: “Managed services for IAM are a great option for any organization looking to streamline their identity processes and relieve their in-house teams of strenuous identity tasks. Our comprehensive service portfolio helps companies of all sizes to automate the onboarding of new applications and gives them the freedom to focus on their own innovations. It is highly customizable and addresses all customer and partner requirements – a simple, affordable, and secure solution.”
